PERSONAL INFORMATION

- **Age:** 20
- **Date of Birth:** July 27, 2006
- **Place of Birth:** Zamboanga City, Zamboanga Del sur
- **Gender:** Male
- **Civil Status:** Single
- **Nationality:** Filipino
- **Religion:** Roman Catholic

CAREER OBJECTIVE

Motivated and detail-oriented professional with experience in technology, database management, system development, and administrative work. Demonstrates strong problem-solving, adaptability, communication, and organizational skills, with the ability to work independently or collaboratively in fast-paced environments. Committed to continuous learning and delivering accurate, efficient, and high-quality results across a variety of professional roles.

• WORK EXPERIENCE / TECHNICAL PROJECTS

- **Enterprise Document Tracking System (EDTS)** | Full-Stack Developer | June 2026 - July 2026

Developed a full-stack document tracking system using **Node.js**, **Express.js**, **React**, **MySQL**, and **Tailwind CSS** for managing documents across multiple departments. Implemented JWT authentication, role-based access control, document CRUD operations, document routing, file attachments, and activity logging to improve system security and accountability. Developed search, filtering, pagination, analytics dashboards, and CSV/PDF export features to support efficient document management and reporting.

- **Pokémon Predictor** | Django Developer | April 2026 - May 2026

Developed a web-based Pokémon prediction system using **Python**, **Django**, and **SQLite** to analyze Pokémon characteristics. Implemented machine learning models using **scikit-learn**, **pandas**, and **joblib** to predict legendary status and total base stats.

Designed a user input form that processes Pokémon information and displays the prediction results through the web application.

- **Digital Event Calendar System** | Full-Stack Developer | Feb 2026 – May 2026

Successfully deployed a comprehensive digital calendar to streamline academic and administrative event scheduling for the institution.

Engineered core features including automated holiday synchronization, dynamic search filters, and automated PDF report generation.

Designed an intuitive, user-friendly off-white interface to enhance accessibility and daily usability for school staff.

- **Online Learning System (OLS)** | Full-Stack Developer | Nov 2025 – Jan 2026

Engineered a comprehensive web-based platform with distinct modules for student and teacher portals.

Designed and implemented secure user authentication and grading modules to streamline management.

Managed relational databases using PHP and MySQL to ensure data integrity and synchronization.

- **Administrative Loan Tracker** | Lead Developer | Nov 2025 – Dec 2025

Developed a centralized tracking system prioritizing administrative efficiency and secure access.

Resolved complex database synchronization issues to maintain accurate, up-to-date financial tracking.

Improved user experience by designing an intuitive, highly responsive navigation interface.

EDUCATION

- **Western Mindanao State University (WMSU)** – College of Computing Studies | Zamboanga City | 3rd year
Bachelor of Science in Computer Science (BSCS)

Associate in Computer Technology Major in Application Development (ACT-AD) – Completed

Collaborated extensively on group projects utilizing shared GitHub repositories, demonstrating strong version control and teamwork capabilities.

Relevant Coursework: Data Structures and Algorithms, Database Management Systems, Web Development.

- **Pasonanca National High School** – Zamboanga City, Zamboanga Del sur | Senior High School Graduate

AWARDS & ACHIEVEMENTS

- Top 1 in Research and Innovations
- Graduated With Honors (Senior High School)

KEY SKILLS
